The Omiya Bonsai Art Museum, Saitama

Bonsai trees are an inherent part of Japanese traditional culture, and for those of you who are curious about them, Omiya Bonsai Art Museum is the place for you. Some of the trees here, such as the Japanese white pine named “*Chiyo-no-Matsu*,” are hundreds of years old, and all of them are carefully looked after by bonsai masters. This museum isn't only limited to bonsai. It also has a collection of artwork and *suseki* (small stones with naturally beautiful shapes).

Omiya Bonsai Village

Omiya Bonsai Village was established by bonsai traders who had relocated as a group following the Great Kanto Earthquake (1923). The village is famous among bonsai lovers of the world as a sacred place for bonsai. Even the streets are named after trees like *Kaede* and *Momiji*! The Bonsai House of Four Seasons lets you explore the seasons in beautiful surroundings. You can even create your own bonsai in *Seikou-en* bonsai nursery. There are also English bonsai lessons for visitors.

Tsuki-jinja Shrine

Like many other Japanese shrines, Tsuki-jinja Shrine has stone guardians. Unlike many other shrines, however, this one is guarded by stone rabbits, as the word *tsuki* means “moon” in Japanese, and, while some people see a face when they look at the moon, Japanese people see a rabbit! For this reason, rabbits are considered the messengers of the moon, making this a must-visit not just for people who are interested in shrines, but rabbit lovers too!

Shibusawa Eiichi and the Modernization of Japan

In terms of modernization, Japan has come a long way in a short space of time. Much of that is thanks to Shibusawa Eiichi (1840-1931), who made huge contributions to Japan's economy. Shibusawa Eiichi helped establish nearly 500 companies. Additionally, as a private sector entrepreneur, his work led to friendly Japan-US relations. He was also involved in nearly 600 other projects, such as education, urban planning, and financial support of various medical facilities.
